DETAILED ACTION

Allowable Subject Matter

Claims 46-95 are allowed.

The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the combined claims define over the prior art. The cited prior art does not disclose or suggest a semiconductor device inter alia the limitations "...a first ILD layer over the substrate and the MOSFET wherein the silicide portion over the gate electrode is exposed and the first ILD layer is substantially flush with a top of the gate electrode; a metal gate portion:

over the first ILD layer and

over the silicide portion over the gate electrode;

the metal gate portion having a width substantially greater than the width of the silicide portion over the gate electrode;

a second ILD layer over the metal gate portion and the first ILD layer;

a first metal contact through the second ILD layer contacting the metal gate portion; and

a second metal contact through the second and first ILD layers contacting the drain completing the formation of the high f_{MAX} deep submicron MOSFET structure;

whereby the width of the metal gate portion reduces R_g and increases the f_{MAX} of the high f_{MAX} deep submicron MOSFET structure...."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
